

The World's Most Advanced Multi-Screen Solutions

Multi-Screen Servers & Computers

Command and Control from 2-128 Screens

9X Media brings on powerful multi-screen computing solutions by delivering customizable servers and computers designed to provide turnkey high-performance capabilities in a variety of sophistication levels and form factors.

The 9X Multi-Screen Server is built to order for demanding and diverse high-level applications. All servers have silent cooling systems and come complete with a powerful multi-screen software utility and custom controller / programming system.

Features include:

- > over 60 screens from single server
- > to 144 external video inputs
- > to 16 computer inputs
- > wireless internet network
- > video conference
- > laptop compatible

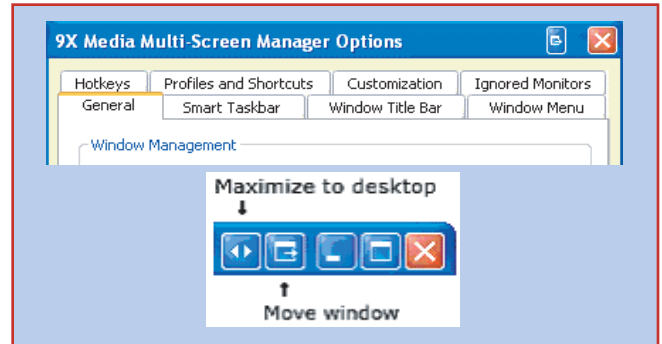

An investment in 9X Media is an investment in the future of visualization.

The 9X Multi-Screen Manager Software

All 9X Media multi-screen products come complete with software. 9X Media's Multi-Screen Manager is a software utility which increases user productivity and unleashes dramatic capabilities and innovations inherent in multi-screen computing.

- > Control application positioning with Shortcuts
- > Mirror your main screen to additional screens for a presentation
- > With one click: move windows and maximize windows across the desktop
- > Intuitively manage applications with the Multi-Screen Taskbar

The 9X Multi-Screen Computers

All 9X Media multi-screen computers are built to order and customized to push the limits in a variety of demanding desktop and video wall applications. All computers come with a powerful multi-screen software utility.

Features include:

- Over 32 screens from single computer
- Mirroring to external computers
- multiple inputs and outputs
- touchscreen compatible
- laptop compatible option

All 9X Media Multi-Screen solutions are customizable, upgradeable and interchangeable between and within all product lines, ensuring each user has the solution which best fits their needs today and tomorrow.
