X-Top 1-over-5 Customized Multi-Screen Display and Computer

9X Media customized X-Top Multi-screen for Woodshole Oceanographic Institute

Post Survey Analysis System

The mission critical Post Survey Analysis System is for viewing digital images taken from an underwater robot that swam through a 45 mile long section of an aqueduct supplying water for the City of New York. The System displays a full view of the interior circumference of the aqueduct; simultaneously with other information (such as vehicle depth, heading, et cetera). The information is used to locate defects in the aqueduct in order to plan a repair.

9X provided 1-over-5 X-Top Multi-Screen Display System and Multi-Screen Computer.

9X Media designs, manufactures and markets the world's most advanced Multi-Screen Solutions. These include X-Top Desktop Displays, X-Wall Video Walls, Mobile Walls and Multi-Screen Workstations Solutions are customized and include enabling software.
